Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give his customer free gifts of dry goods or shoes. A trade and advertising business is a business. Its obligations are its stock in trade, and its obligations should be paid for, no matter in what part of the paper they appear.

The Continued Calls

UPON THE LEADER for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Shoppers.

careless, false, or other public information where a fee is published, and for ordinary notices, regulations of respect, etc. The LEADER will charge FIVE CENTS A LINE, and heretofore this will be the accurate rule. This, however.

Does Not Include

notice of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for *Business Leads* in THE LEADER is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local insert in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—30 times—the bill is \$15.00. When he finds it out there is a "kick" and a controversy, followed probably by an icy feeling. Now, to obviate this trouble, no "I'll forget" notices will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

If you have an item of news, please call UP THE LEADER, Telephone 33, and send it in.

KENTUCKY REPUBLICAN PLATFORM.
Adopted at Louisville, Aug. 10th, 1917.

Resolved, by the Republican party in Convention assembled—
First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1896.
Second—That we favor the Republican National and State Administrations and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.
Third—That we commend the action of the representatives of the Republican party in the passage of a Fair Bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the National credit.
Fourth—That we are opposed to a system of Civil Service that builds up an official class with practically a lifetime tenure in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the term of service to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every citizen of the country a proper proportion of the work.
Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.
Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the late Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of levying the taxes they impose on themselves for city and town expenses.
Seventh—We favor the passage of a law that will protect the laborers of Kentucky from the competition of convict labor, and, if necessary, to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

PRESIDENT MCKINLEY'S Civil Service order is very generally commended by the press and the leading minds of the Nation. It prohibits removal from Government positions without specified cause and without giving the accused an opportunity to make defense, a principle which everybody must commend as fair and just and one which cannot but result in an improved condition of the Civil Service of the country. To be sure, it is not pleasing to those spoils men who insisted that men should be removed from office simply because they were of another party, no matter how good their record had been, but it

is thoroughly in line with the declarations of the Republican party, which, in its St. Louis platform, assumed responsibility for the Civil Service Law and renewed its declarations that "it should be thoroughly and honestly enforced and extended wherever practicable."

The Commissioners of Brown county have received the new pike between Aberdeen and Manchester. This is the best piece of pike in Brown county, and Aberdeen is connected with Manchester with a good pike, and the farmers who live up in the bottoms can now trade in Aberdeen instead of Manchester. It is now open to the traveling public, and those who travel between Aberdeen and Manchester can now do so without driving four miles out of their way.

SHERMAN

Submits An Answer to Japan's Note of July 10.

It Reiterates the Position Heretofore Taken By the Administration

As the Propriety of Annexing Hawaii to the United States is Under Consideration, Japan, however, will be safeguarded—Special Service for Honolulu.

WASHINGTON, Aug. 20.—The Canadian government and the United States have agreed upon co-operation in negotiating the postal facilities in the Klondike region and the result will shortly be evidenced in a substantial doubling of the mail service from the coast into that district. The reply of Canada to Acting Postmaster General Shallenberger's proposition to establish an exchange mail to the city of Dawson City reached here Thursday. It is a counter proposition made by Canada, the latter agreeing to perform the service from Dawson City down to Iliamna by means of a contract of her own, with reimbursements to be made by this government for its share of the service.

WASHINGTON, Aug. 20.—Secretary of State Hughes today submitted to the government an answer to Japan's last note relating to the annexation of Hawaii to the United States. The answer was delivered to Mr. Hoashi, the Japanese minister, last Saturday. It is in reply to Japan's note of July 10, which was dated at that time had not been acknowledged.

Sherman's answer is marked by its friendly expressions toward Japan, which gives special satisfaction in view of the somewhat strained relations resulting from the previous correspondence. Two features brought out in the answer—it reiterates the position heretofore taken by the administration of state and right and property of annexing Hawaii to the United States. With this, however, is coupled an assurance that the interests of Japan in Hawaii will be fully safeguarded. It also expresses satisfaction at the plan of arbitration between Japan and the United States, on the question of Japanese immigration to Hawaii.

The answer is largely an elaboration of Mr. Sherman's former letter, and the policies expressed in no way differ from those previously laid down by him.

Minister Hoashi has cabled the substance of the answer to the Tokyo government and the full text of the answer has been forwarded. It will not reach Japan until September 7, and no action may be taken until the text is here.

The Japanese legation is reticent over the dispatch, although there is no effort to conceal the satisfaction felt over the spirit displayed through out Mr. Sherman's answer. The attention of the Tokyo government has been enabled to give consideration to the expressions of good will.
